

MD. Tahsin Ferdous

Full Stack Developer

tahsin.ferdous3546@gmail.com | +880 1795-368447 | Savar, Dhaka, Bangladesh | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

Full Stack Developer with experience building scalable SaaS platforms and production-grade APIs using Python, Django, and Django REST Framework, alongside modern React.js / Node.js frontends. Strong experience in backend architecture, microservices, workflow automation, payment systems, and distributed task processing using RabbitMQ and Redis. Proven ability to design end-to-end systems serving 1,000+ users, supported by strong competitive programming background.

Technical Skills

Languages: Python, C++, JavaScript, TypeScript, Golang

Frontend: React.js, Next.js, Tailwind CSS

Backend & Frameworks: Django, Django REST Framework, Gin, GORM, Express.js, Node.js, Prisma, Mongoose

Databases: PostgreSQL, MongoDB, Redis

Tools & Platforms: Docker, Git, GitHub, gRPC, Stripe, SSLCOMMERZ

Problem Solving: [Codeforces Pupil](#) | [Codechef 3 Star](#) | [Leetcode](#)

Soft Skills: Quick Learner, Adaptability, Teamwork, Critical Thinking, Responsibility

Experience

Junior Software Engineer

April 2025 – March 2026

AffPilot (AI SaaS Startup)

Onsite

- Built and scaled Growthly and AffPilot SaaS products with Django, React.js, and Golang, supporting 1,000+ active users.
- Developed CMS with Excel parsing, facet filtering, and RabbitMQ-powered workflows, cutting manual operations by ~40%.
- Integrated Stripe and SSLCOMMERZ payment gateways with Shopify/WordPress publishing via PostgreSQL and Redis.
- Secured platform with reCAPTCHA v3 and IP rate limiting; containerized all services using Docker and Django REST Framework.

Projects

Affpilot | AI SaaS Platform

[Live](#)

- Implemented Shopify, WordPress, and Blogger publishing integrations for AI-generated blog content automation.
- Built a centralized Stripe/SSLCOMMERZ payment system managing transactions across AffPilot's product suite for 1,000+ users.
- **Stack:** Django, PostgreSQL, React.js, Material UI, Stripe, SSLCOMMERZ, Shopify API

Northwind | Full-Stack E-Commerce & Support Platform

[Live](#) | [GitHub](#)

- Built a full-stack app with React 19, Node.js, PostgreSQL, and Drizzle ORM, plus Clerk-based RBAC for multiple user roles.
- Integrated Stream Chat/Video for live support and a secure Polar API checkout with idempotent payment processing.
- **Stack:** React, Tailwind CSS v4, Express.js, PostgreSQL, Drizzle ORM, Clerk, Stream SDK, Polar, ImageKit, Sentry

E-Commerce Microservices Platform | Backend System

[GitHub](#)

- Designed a Node.js/Express microservices architecture with an API Gateway and User, Product, Cart, Order, and Payment services.
- Implemented gRPC for synchronous calls and RabbitMQ for async workflows, with Redis caching for performance.
- **Stack:** Node.js, Express.js, JavaScript, MongoDB, Mongoose, Redis, RabbitMQ, gRPC, Docker

Education

City University, Bangladesh

B.Sc in Computer Science & Engineering

2022 – 2025

Achievements

ICPC: 2x Dhaka Regional Onsite Contestant (24, 25)

Languages

Bengali: Native

English: Professional Proficiency
